

FESTIVALUL INTERNAȚIONAL  
DE TEATRU DE LA SIBIU

CRAMA OPRIȘOR

## Sibiu International Theatre Festival

Sibiu International Theatre Festival (SITF) has acquired a remarkable identity in the 22 years that have passed since its existence. The high standard of this Romanian cultural reference point consists in the uniqueness of the brought-in concepts. Constantin Chiriac, President of the event, pretends SITF is the only festival in the world having established a section showing performances that could be taken as goods of universal patrimony. A great many participants consider SITF the most important cultural festival – “The Little Sorbonne” –, due to the publications issued on the occasion, to her conferences, reading shows, special workshops, volunteers’ program and to the daily Aplauze / Applauses.

Under the emblem “Oprișor Winery, sibfest’s official wine”, we are event’s partner. During the Festival, our wines are present both on the stage, the moment prizes are granted, and in the public houses from the centre of Sibiu. It’s precisely in this very atmosphere that the wines are able to dialogize with the universal cultural values and thus increase event’s spectacular dimension. We did attend no less than 381 manifestations developed in 66 playing spaces, in front of about 62,000 onlookers daily, the artists and participants coming from 70 countries of the world.

As for her artistic performance, Sibiu International Theatre Festival ranges the third, after Edinburgh and Avignon. The diversity of the artistic action contributes to the acceptance of different values, each with its own characteristics. Between creators and public, between the various theatrical formulae, a flexible communication bridge is thus established and consolidated.
